

EYFS Recommended Reads

'Reading for pleasure is the single most important indicator of a child's future success' – *Organisation for Economic Cooperation and Development, 2002.*

If we want children to love reading, we must show them that WE love reading: talk about books, share books, make books central.

In this time of uncertainty, we have compiled a selection of recommended reads, collated from a variety of educational sources. Many can be read for free online, purchased second-hand and – for some – audio books are available to stream.
