

# Christ Church C of E VC Primary School

'To inspire a love of learning for life so that every child can flourish within a supportive Christian community'

Headteacher: Mr. Neil McKellar-Turner

Tuesday 27 April 2021

## CCH Science Week

Dear Parents and Carers,

We are very excited to share with you details of our **whole school Science Week** which will take place in the week commencing 24 May 2021.

Our theme this year is '**Women in Science**'. Pupils will be working scientifically to answer a series of enquiry questions and to deepen their understanding of key figures from the scientific community. There will be multiple opportunities during the week for pupils to engage in science experiments and hands-on research as well as participating in a virtual science workshop!

As well as exploring scientists from the global community, we would also like to explore those scientists we have within our Christ Church family. **We are, therefore, looking for family and friends of the school who work in a science, technology or medical based industry to come into school (virtually), share a little about their work and answer a few questions from the children.** We are looking for a broad range of skills and occupations in order to show our children the many real-life possibilities that arise from engaging with science. Maybe you work in scientific research or for our NHS? Maybe you are a keen ecologist with a thriving allotment or have a growing fossil collection? Wherever your scientific passion lies, we would love for you to share this with our children!

If you would be keen to participate in this exciting opportunity, please could you email me via the school office by Friday 7 May. In your email, could you please give a brief overview of the work or hobby you are involved in and the dates and times you are available during the week of the 24<sup>th</sup> to the 28<sup>th</sup> May.

I look forward to hearing from you.

Thank you for your support.

Helen Calabria
