Acceptable Use Policy and Agreement – Staff and Governors

This policy is designed to enable acceptable use for staff and governors.

The School provides a range of ICT resources which are available to staff members and governors. In order to ensure the safety of staff, governors and pupils it is important that all staff members and governors follow the guidelines detailed below.

This policy aims to:

- Promote the professional, ethical, lawful and productive use of the School's ICT systems and infrastructure;
- Define and identify unacceptable use of the School's ICT systems and external systems;
- Educate users about their data security responsibilities;
- Describe why monitoring of the ICT systems may take place;
- Define and identify unacceptable use of social networking sites and school devices; and
- Specify the consequences of non-compliance.

This policy applies to staff members, governors and all users of the School's ICT systems who are expected to read and understand this policy. To confirm acceptance of the policy, users will sign an Acceptable Use Agreement which is attached to this policy. Breach of this policy may result in disciplinary action.

The use by staff and monitoring by the School of its electronic communications systems is likely to involve the processing of personal data and is therefore regulated by the Data Protection Act 2018, together with the Employment Practices Data Protection Code issued by the Information Commissioner. Staff are referred to the School's Data Protection Policy for further information.

If you are in doubt and require clarification on any part of this document, please speak to the School Business Manager.

Provision of ICT Systems

All equipment that constitutes the School's ICT systems is the sole property of the School.

No personal equipment should be connected to or used with the School's ICT systems. Users must not try to install any software on the ICT systems without permission from the School Business Manager. If software is installed without permission, it may cause extensive damage to the ICT systems and users could be held personally liable for any costs incurred in rectifying the damage.

The School Business Manager is responsible for purchasing and/or allocating ICT equipment to individuals. Individual laptops/desktop computers or ICT equipment may be removed at any time and without prior warning for regular maintenance, reallocation or any other operational reason. Maintenance includes but is not limited to, new software installations, software updates, reconfiguration of settings and computer re-imaging.

Network Access and Security

Users are not permitted to make any physical alteration either internally or externally, to the School's computer and network hardware.

All users of the ICT systems at the School must first be registered. Following registration, a network user account will be created consisting of a username, password and an e-mail address. All passwords should be of a complex nature to ensure data and network security. All user account details are for the exclusive use of the individual to whom they are allocated. Staff are responsible for ensuring their password remains confidential and their account is secure.

All users are personally responsible and accountable for all activities carried out under their user account(s). Users must take all reasonable precautions to protect their user account details and must not share them with any other person.

When any computer is left unattended, it must either be logged off or locked. Activity that threatens the integrity of the School ICT systems or activity which attacks or corrupts other systems, is forbidden. Users' internet activity must not compromise the security of the data on the School ICT systems or cause difficulties for any other users.

Under no circumstances should a pupil be allowed to use a staff computer account, unless being directly supervised by the account owner.

Where email is provided, it is for academic and professional use. The School's email system can be accessed from both the School computers and via outlook on your phone. Wherever possible, all School related communication must be via the School email address.

The School's internet connection is filtered meaning that a large amount of inappropriate material is not accessible. - engaging in online chat rooms, instant messaging, social networking sites and online gambling;
- forwarding electronic chain letters and other materials;
- accessing, downloading, storing, transmitting or running any material that presents or could present a risk of harm to a child.

Any such action will be treated very seriously and may result in disciplinary action up to and including summary dismissal.

Where evidence of misuse is found, the School may undertake a more detailed investigation in accordance with our Disciplinary Policy, involving the examination and disclosure of monitoring records to those nominated to undertake the investigation and any witnesses or members of management involved in the disciplinary procedure.

If necessary, such information may be handed to the police in connection with a criminal investigation.

Digital Cameras

The School encourages the use of digital cameras and video equipment. However, staff should be aware of the following guidelines:

This includes websites accessed, the interception of e-mail and the viewing of data stored, where it believes unauthorised use of the School's ICT system is or may be taking place or the system is or may be being used for criminal purposes. Any inappropriate material found will be deleted. Monitoring software is installed to ensure that use of the network is regularly checked by the IT provider to ensure there are no pastoral or behaviour concerns or issues of a safeguarding or prevent nature.

Other reasons for monitoring the ICT systems include the need to:

- They are not to be used when members of staff are directly supervising or working with children. Whilst members of staff are working in the classroom they should be securely stored in a bag/cupboard/locker.
- Personal mobile phone cameras are not to be used on school trips. The School provides class iPads for this purpose.
- All phone contact with parents regarding school issues will be through the Schools phones. Personal mobile numbers should not be given to parents at the School.
